

TowerJazz Recognized by Skyworks Solutions as 2012 Foundry Supplier of the Year, Receives Quality Iron Man Partner Award

March 11, 2013 at 7:01 AM EDT

Skyworks is a FEM market leader and a top 5 customer of TowerJazz

MIGDAL HAEMEK, Israel & NEWPORT BEACH, Calif.--(BUSINESS WIRE)--Mar. 11, 2013-- [TowerJazz](#), the global specialty foundry leader, today announced it has received the 2012 Foundry Supplier of the Year Award and the Quality Iron Man Award from [Skyworks Solutions](#), Inc., an innovator of high reliability analog and mixed-signal semiconductors enabling a broad range of end markets. TowerJazz has been recognized as the Foundry Supplier of the Year for the fourth time, providing excellent quality, performance and solid alignment with Skyworks' supply chain requirements.

TowerJazz has received significant supplier awards from Skyworks every year for the past five years – including Foundry Supplier of the Year, Innovation Partner of the Year, Overall Supplier of the Year, and now Quality Iron Man Partner of the Year – all signaling TowerJazz and Skyworks' continued alignment and growth as long-term partners.

Skyworks utilizes a broad range of TowerJazz's specialty process offerings including mixed-signal CMOS, RFCMOS, SiGe BiCMOS, SOI, and BCD (Bipolar-CMOS-DMOS) to develop a variety of differentiated products across their target market segments.

"Skyworks is a diversified, fast growing company, and a top five customer of TowerJazz. It's very exciting that their product direction is increasingly using specialty silicon based technologies – effectively more than tripling our served market over the next several years," said David Postula, TowerJazz Vice President of North American Sales. "The fact that we are consistently honored with awards year after year in various categories validates our commitment to achieve customer-centric values across the organization. Our entire team works hard to attentively listen to our customers' needs and not only meet, but often times exceed, their expectations. We look forward to continue achieving high supplier scores by delivering the best possible quality and service, thereby meeting growing customer needs."

"Quality is essential for Skyworks and the Iron Man Award clearly demonstrates our commitment to quality and manufacturing excellence. We work very diligently toward our goals of zero customer returns, 100% on time delivery, world-class yields and total customer satisfaction. We are very proud to receive these awards from Skyworks and be recognized as their Quality Partner," said Don Cerney, TowerJazz Vice President of Worldwide Quality and Reliability.

"We truly appreciate the validation from Skyworks and their confidence in our technology platforms as we continue to align our roadmaps toward the next generation needs of all of our key customers, particularly in the fast-growth area of wireless front-end-modules with our RF SOI and SiGe technologies," said Dr. Marco Racanelli, Senior Vice President and General Manager of RF/High Performance Analog and Power Business Groups at TowerJazz.

About TowerJazz

Tower Semiconductor Ltd. (NASDAQ: TSEM) (TASE: TSEM), its fully owned U.S. subsidiary Jazz Semiconductor Ltd., and its fully owned Japanese subsidiary TowerJazz Japan, Ltd., operate collectively under the brand name TowerJazz, the global specialty foundry leader. TowerJazz manufactures integrated circuits with geometries ranging from 1.0 to 0.13-micron, offering a broad range of customizable process technologies including: SiGe, BiCMOS, Mixed-Signal and RFCMOS, CMOS Image Sensor, Power Management (BCD), and Non-Volatile Memory (NVM) as well as CMOS and MEMS capabilities. TowerJazz also offers a world-class design enablement platform that complements its sophisticated technology and enables a quick and accurate design cycle. In addition, TowerJazz provides (TOPS) Technology Optimization Process Services to IDMs as well as fabless companies that need to expand capacity, or progress from an R&D line to a production line. To provide multi-fab sourcing, TowerJazz maintains two manufacturing facilities in Israel, one in the U.S., and one in Japan with additional capacity available in China through manufacturing partnerships.
